## What is the SmartRewards Demand Response program?

Santee Cooper's SmartRewards demand-response program pays bill credits to customers who allow the installation of a small device (switch) near their home's central heating-cooling system and/or electric water heater.

During periods of peak demand or system constraints, Santee Cooper can activate the switch and cycle the equipment off and on for short durations to temporarily reduce demand.

### SmartRewards Perks

- **Voluntary**
- **FREE**
- **Environmental Benefits**  
Participants play a key role in forging a greener tomorrow by curbing energy consumption during peak demand.
- **Valuable Credits**  
Earn up to \$100 in bill credits during your first year.

*Check out our  
**SmartRewards webinar,**  
which provides more  
information about the program.*
