

HAPPY NEW YEAR

from Santee Cooper

Resolve to improve your
company's energy efficiency
this year. **Our rebates can help!**

empower[®]
BUSINESS

Looking to improve your bottom line? You could save money on your electric bill by upgrading equipment that uses a lot of energy, starting with your heating and cooling system. If your system is more than 10 years old, consider replacing it. Santee Cooper has rebates of up to \$400 to help with HVAC upgrades!

And we offer rebates of \$50 for smart thermostats, which can help you heat or cool your business more efficiently – and control the temperature from anywhere, using your smartphone or other device.

For more information or to receive your incentive today, visit www.santeecooper.com/programs-incentives/empowerbusiness, email commercial.energy@santeecooper.com or call **800-804-7424**.

Qualifications Apply.

We also offer incentives for:

- Other commercial energy-efficient equipment
- Small business lighting/refrigeration upgrades
- Rooftop or community solar power
- Electric vehicle infrastructure
