DEFEAT THE PEAK. BANK THE SAVINGS.
Does shifting and delaying your appliances really make a difference? 100%.
5 Ways to Defeat The Peak
1. Use the dishwasher after Peak Hours.
2. Preheat your home before Peak Hours.
3. Install a water heater timer to run automatically outside of Peak Hours.
4. Use the clothes dryer outside of Peak Hours.
5. Use one appliance at a time instead of using them all at the same time.
Winter Peak Hours are 6 a.m. to 9 a.m. November 1 through March 31.
