

## Stay Safe Around Downed Power Lines

- Always assume a downed power line is energized.
- In an emergency, call 911 immediately. Report the downed power line to us at **888-769-7688**.
- If it's down, turn around – never drive over a downed power line.
- If your vehicle touches a power line, stay inside and call 911.
- If you must exit, avoid touching the vehicle and the ground at the same time. Jump out of the vehicle and move away by shuffling your feet or hopping with both feet together.
