

COOL POOLS, HOT SAVINGS

Dive into easy energy savings with energy-efficient equipment for your pools, fountains, waterfalls and lazy rivers.

Rebates for qualified equipment include:

- \$300/HP for variable speed water feature filter pump
- \$250/HP for variable frequency drive (set at constant reduced speed)
- \$450 per non-filtered pool variable frequency drive
- \$50/HP for domestic type water pump

Smarter Lighting, Bigger Savings

Upgrading inefficient lighting is an easy way to save money and energy for years to come. We offer rebates on several lighting upgrades:

- Underwater lighting: \$0.40/reduced watt
- Certified retrofit lighting: \$0.40/reduced watt
- Non-certified retrofit lighting: \$0.20/reduced watt
- Certified new construction lighting: \$0.40/reduced watt
- Non-certified new construction lighting: \$0.20/reduced watt

Save even more by making the switch to lighting controls, with rebates up to \$50 per sensor.
