iNote Subject: COVID-19 Vaccine

Occupational Health and Wellness is working to secure the COVID-19 vaccine for all Santee Cooper employees. We've requested to be included in [Phase 1C](#) in the State plan, which is slated for early spring, however, if supplies are available, it could be offered sooner. The vaccine is free and we will provide access to the vaccine doses as they become available.

The vaccine is voluntary. [CDC](#) and [DHEC](#) both strongly recommend you get it.

You can find more information about the vaccine on our [COVID-19 employee page](#). Please take time to review this material so that you are well informed about the vaccine and its benefits in controlling the pandemic and helping us in getting back to normal business operations.

More information will continue to be made available about the vaccine and its availability.
