Individual Facility Caps	Program Caps - \$200,000, Aggregate Caps \$300,000

**NOTE: All rebates are subject to the eligibility requirements and Terms & Conditions of the program (see Program Manual for details)**

Standard Measures and Corresponding Rebates

LIGHTING MEASURES		REFRIGERATION AND KITCHEN MEASURES	
NOTE: All Retrofit Lighting & Sensors MUST BE PRE-APPROVED			
General Luminance	Tier 1: Certified Lighting \$0.40 / reduced Watt	LED Display Case Lighting	Retro T8: \$8 / lamp Retro T12: \$10 / lamp
	Tier 2: Non-Certified Lighting \$0.20 / reduced Watt	Electronically Commutated Motors	\$50 / motor
Lighting Controls	\$45 / sensor - day lighting controls	Refrigerant Suction Line Insulation	\$3 / linear foot
	\$45 / sensor - dimming controls	ENERGY STAR® Glass or Solid-Door Commercial Freezer	\$70 / freezer
	\$10 / sensor - fixture occupancy sensor	ENERGY STAR® Glass or Solid-Door Commercial Refrigerator	\$70 / refrigerator
	\$10 / sensor - wall occupancy sensor	ENERGY STAR® Kitchen Appliances	ENERGY STAR® Combination Oven: \$200 / oven
	\$50 / sensor - ceiling occupancy sensor		ENERGY STAR® Convection Oven: \$200 / oven
	\$45 / sensor - bi-level occupancy sensor		ENERGY STAR® Dishwasher: \$250 / dishwasher
LED Underwater Lighting	\$0.40 / reduced Watt		ENERGY STAR® Griddle: \$100 / griddle
HVAC MEASURE			ENERGY STAR® Hot Food Holding Cabinet: \$200 / cabinet
Unitary HP (Air Cooled - Single Phase)	Tier 1: \$300	Demand Control Kitchen Hood	ENERGY STAR® Steamer: \$200 / steamer
	Tier 2: \$400		\$735 / hood
Water Source HP	\$200	Domestic Hot Water Measures	
3-Phase HVAC	\$0.30 / kWh Saved	Residential Style Water Heaters	HP Water Heater: \$350 / unit
VRF/Mini-Split Systems	\$250 / ton		Solar Water Heater: \$500 / unit
VFD Installation	\$50 / HP	Drain Water Heat Recovery	\$400 / drain
PTACs / PTHPs	\$50 / ton	Aerator and Pipe Insulation	Aerator: \$3 / aerator
HVAC Controls	DCV: \$550 / System		Showerhead: \$3 / showerhead
	DEE: \$150 / System		Pipe Insulation: \$3 / linear foot
	ARC: \$580 / System		
Hotel Room Key Card Energy Management System	\$20 / Hotel Room	Pumps / Motors Measures	
Smart Thermostat	\$50 / Thermostat	Variable Speed Water Feature Filter Pump	\$300 / HP
		Variable Frequency Drive (Constant Setting)	\$250 / HP
		Non-Filtered Pool VFDs	\$450 / VFD
		Domestic Type Water Pumps	\$50 / HP

Standard Program Steps

Steps	Retrofit Lighting	New Construction Lighting	HVAC, Refrigeration & Kitchen, Domestic Hot Water, or Pumps / Motors Measures
Step 1	Submit Retrofit Lighting Workbook <b>PRIOR</b> to installation along with all other necessary documents.	Purchase and install eligible measures(s)	Purchase and install eligible measures(s)
Step 2	Purchase and install eligible measure(s) <b>AFTER</b> approval by Santee Cooper	Submit New Construction Lighting Workbook along with all other necessary documents. 14 days to review and additional <b>2-3 Weeks to receive rebate check</b>	Submit Rebate Application along with all other necessary documents. 14 days to review <b>2-3 Weeks to receive rebate check</b>
Step 3	Submit Installation Notice and final Lighting Workbook. Receive Rebate Check within <b>2-3 Weeks</b>		

- Customers will have 14 Days to respond to Santee Cooper request for clarification or additional information.
- Santee Cooper retains the right to inspect installed measures up to (2) years.
