SANTEE COOPER

OUTDOOR LIGHTING CONTRIBUTION AGREEMENT FOR STANDARD LED COLLECTION (OLC-22)

Agreement Effective Date & Term

The Outdoor Rental Lighting Contribution Agreement (hereafter known as the Agreement) is effective on the date recorded on the front of this Agreement. The Agreement shall remain in effect for a period of ten (10) years from the effective date.

Applicability, Installations, and Charges

Electric Service, lighting lease, and energy rates will be delivered at the charges and terms set forth by the current Santee Cooper "Experimental Private Outdoor Lighting Service Contribution," Rate Schedule OLC-22 ("OLC-22"), or successor schedules should the experimental rate be adopted as a permanent rate, and in accordance with Santee Cooper's Terms and Conditions of Retail Electric Service, available online or at Santee Cooper's retail offices. In the event that OLC-22 (or a successor schedule) is terminated and not converted to a permanent rate, a prorated refund, without interest, will be returned to the customer by check within 30 days of termination. In the event the OLC-22 (or a successor schedule) is canceled, the Customer will be returned to the then current "Private Outdoor Lighting Service" OL-17 or its successor rate schedule.

With the exception of the concrete foundations, which are furnished, installed, and maintained by the Customer, lighting equipment including lamps, fixtures, and the necessary lighting circuits, poles, and fittings will be furnished, installed, owned, and maintained by Santee Cooper. Any exception must be submitted in writing and approved by Santee Cooper before installation of any associated lighting equipment.

The provisions of OLC-22 and any successor rate schedules are adopted and incorporated by reference into this Agreement.
