NOTE: All rebates are subject to the eligibility requirements and Terms & Conditions of the program (see Program Manual for details)

Standard Measures and Corresponding Rebates

LIGHTING MEASURES		REFRIGERATION AND KITCHEN MEASURES		
NOTE: All Retrofit Lighting & Sensors MUST BE PRE-APPROVED		LED Display Case Lighting	Retro T8: \$8 / lamp Retro T12: \$10 / lamp	
General Luminance	Tier 1: Certified Lighting \$0.20 / reduced Watt	Electronically Commutated Motors	\$50 / motor	
	Tier 2: Non-Certified Lighting \$0.10 / reduced Watt	Refrigerant Suction Line Insulation	\$3 / linear foot	
Lighting Controls	\$45 / sensor - day lighting controls	ENERGY STAR® Glass or Solid-Door Commercial Freezer	\$70 / freezer	
	\$10 / sensor - fixture occupancy sensor	ENERGY STAR® Glass or Solid-Door Commercial Refrigerator	\$70 / refrigerator	
	\$10 / sensor - wall occupancy sensor	ENERGY STAR® Kitchen Appliances	ENERGY STAR® Combination Oven: \$200 / oven	
	\$50 / sensor - ceiling occupancy sensor		ENERGY STAR® Convection Oven: \$200 / oven	
	\$45 / sensor - bi-level occupancy sensor		ENERGY STAR® Dishwasher: \$250 / dishwasher	
LED Underwater Lighting	\$0.20 / reduced Watt		ENERGY STAR® Griddle: \$100 / griddle	
HVAC MEASURE		ENERGY STAR® Hot Food Holding Cabinet: \$200 / cabinet	ENERGY STAR® Steamer: \$200 / steamer	
Unitary HP (Air Cooled - Single Phase)	Tier 1: \$200 Tier 2: \$400	Demand Control Kitchen Hood	\$735 / hood	
Water Source HP	\$200	Domestic Hot Water Measures		
3-Phase HVAC	\$0.30 / kWh Saved	Residential Style Water Heaters	HP Water Heater: \$350 / unit Solar Water Heater: \$500 / unit	
VRF/Mini-Split Systems	\$250 / ton	Drain Water Heat Recovery	\$400 / drain	
VFD Installation	\$50 / HP	Aerator and Pipe Insulation	Aerator: \$3 / aerator Showerhead: \$3 / showerhead Pipe Insulation: \$3 / linear foot	
PTACs / PTHPs	\$50 / ton		Pumps / Motors Measures	
HVAC Controls	DCV: \$550 / System		Variable Speed Water Feature Filter Pump	\$300 / HP
	DEE: \$150 / System	Variable Frequency Drive (Constant Setting)	\$250 / HP	
	ARC: \$580 / System	Non-Filtered Pool VFDs	\$450 / VFD	
Hotel Room Key Card Energy Management System	\$20 / Hotel Room	Domestic Type Water Pumps	\$50 / HP	
Smart Thermostat	\$50 / Thermostat			

Standard Program Steps

Steps	Retrofit Lighting	New Construction Lighting	HVAC, Refrigeration & Kitchen, Domestic Hot Water, or Pumps / Motors Measures
Step 1	Submit Retrofit Lighting Workbook PRIOR to installation along with all other necessary documents. A pre-inspection is REQUIRED before work can be started. Call a Santee Cooper Trade Ally or a Santee Cooper Energy Advisor before you start the work.	Purchase and install eligible measures(s)	Purchase and install eligible measures(s)
Step 2	Purchase and install eligible measure(s) AFTER approval by Santee Cooper	Submit New Construction Lighting Workbook along with all other necessary documents. 14 days to review and additional 2-3 Weeks to receive rebate check	Submit Rebate Application along with all other necessary documents. 14 days to review 2-3 Weeks to receive rebate check
Step 3	Submit Installation Notice and final Lighting Workbook. Receive Rebate Check within 2-3 Weeks		

- Customers will have 14 Days to respond to Santee Cooper request for clarification or additional information.
- Santee Cooper retains the right to inspect installed measures up to (2) years.
