

# LIGHT THE NIGHT

with Advanced Outdoor  
Lighting Collections

## TECHNICALLY ADVANCED LIGHTING SOLUTIONS WITH TIMELESS VALUES

Much of the charm of the South is found in its blend of classic architecture with a sense of security in neighborhood after neighborhood, city after city.

- Quiet neighborhoods where kids play outside after dark.
- A bustling business where workers stay late to wrap up last-minute details.
- Parking lots where shoppers leave belongings in cars.

Whether you're looking for the perfect luminaire to illuminate a walkway, searching for a lighting solution for an entire neighborhood, or even a sophisticated solution for a parking lot S when night falls, you depend on the safety, convenience and charm of outdoor lighting from Santee Cooper.

## SAFETY, SECURITY AND CONVENIENCE

Our lighting solutions can be tailored to meet your individual needs. To choose the right light for your needs, consult the chart on the inside. High Pressure Sodium (HPS) is light that is actually slightly yellow, while Metal Halide (MH) and Pulse-start Metal Halide (PMH) provide a whiter light. Higher wattage lamps provide brighter light. Santee Cooper will install applicable brackets or poles complete with a photoelectrically-controlled fixture and bulb.

## RESIDENTIAL AND BUSINESS LIGHTING

Santee Cooper's outdoor lighting offers a number of fixture styles for both residential and commercial lighting. Simply select the style and wattage best suited for your needs, and leave everything else to us!

Santee Cooper also offers a free evaluation for residential developments, individual homes and businesses to help you decide which outdoor lighting fixture and illumination is best and where it should be placed on your property.

## A SECURE FEELING IS JUST OUR STYLE

With the security of outdoor lighting as a given, choosing the right style for your project may be the hardest decision. Santee Cooper offers a number of lighting choices in our Standard Lighting and our classically designed Heritage Collection.

## THE HERITAGE COLLECTION

The charm and sophistication of this technically-advanced lighting solution makes the Heritage Collection a popular choice for smaller areas which need to be illuminated.

The Heritage Collection's wide selection of luminaires and poles allows this distinctive collection to compliment any development's master plan. Also, borosilicate glass refractors diffuse the harshness of conventional lighting while ensuring maximum spacing with more uniform ground coverage.

Prices may vary due to fuel adjustment and any applicable taxes. Prices indicated above are monthly lease/rental costs including approximate energy charge. Area of illumination refers to minimum level of approximately .25 foot-candle.

PMH = Pulse Start Metal Halide

\*Heritage Collection fixtures are also available in LED. Delivery lead times should be verified before ordering.

# HERITAGE COLLECTION POLES

These classically-designed poles add beauty and distinction to any setting. With several styles and colors to choose from and various styles of brackets and luminaires, you can select the appropriate combination that suits your needs.

Low Country	Dunes	Atlantic	Long Bay*
<p>Fluted and Smooth 14' fiberglass \$20.93/\$18.03 per month</p>	<p>Fluted 14' fiberglass \$21.23 per month</p>	<p>Fluted and Smooth 14' fiberglass \$17.25/\$15.62 per month</p>	<p>Fluted** 20' and 25' concrete \$28.49/\$30.91 per month</p>
			

\*These items are special order. Delivery lead times should be verified before ordering.

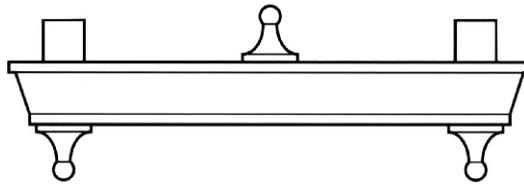

\*\*This pole requires a concrete foundation to be provided by the customer. Santee Cooper will provide a foundation detail, the anchor bolts, and conduit stub-outs for construction.

# HERITAGE COLLECTION BRACKET STYLES

Create your own air of distinction by combining any one of these classically-designed brackets with the fluted or smooth pole of your choice and your favorite luminaires from the Heritage Collection. Sorry, Heritage Collection brackets will not accommodate any of the Standard Lighting luminaires.

## Contemporary "C" Bracket

\$10.25 per month

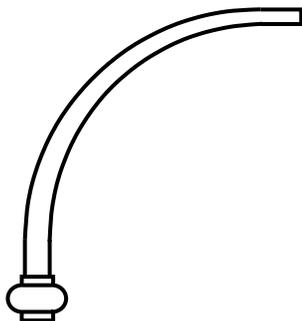

## Classic Ornamental "CS" Bracket

\$6.16 per month

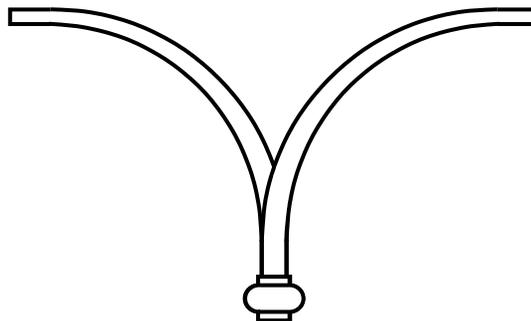

## Davit Arm Bracket for Teardrop Fixture\*

Single 4'/6'  
\$10.25 per month

Double 4'/6'  
\$13.42/\$15.40 per month

\*These items are special order. Delivery lead times should be verified before ordering.

## ENJOY THE BENEFITS

- One low monthly fee that covers installation, maintenance and operating costs.
- A system that turns itself on at dusk and off at dawn, automatically!
- A safer, more attractive and comfortable environment.
