

## Journeyman Event – **DOUBLE CROSSARM CHANGE**

Event Time: 10 Minutes  
Drop Dead Time: 15 Minutes

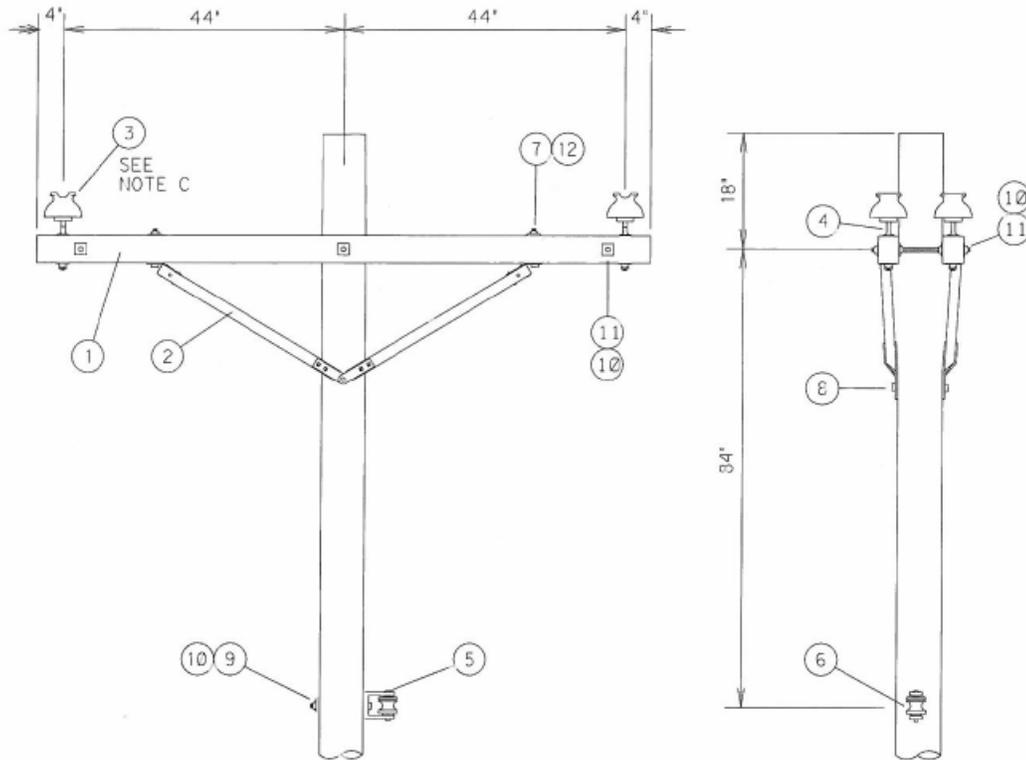

Team is required to replace two 8' crossarms on a V-phase primary construction tangent structure. New crossarms, braces, insulator pins, insulators, bolts and pre-forms will be provided. All materials must be replaced. This event will be simulated de-energized and grounded. The neutral must be covered up. The primary may be floated while the crossarm is being replaced.

1. Teams will be allowed 5 minutes of setup time. The team may direct questions to the judge at this time.
2. Time starts at the Judges' signal.
3. Workers must wear work gloves at all times.
4. The new crossarms may NOT be made up during the 5 minute set up period.
5. New pre-form ties and rubber saddles must be installed. Old pre-form ties and saddles cannot be dropped.
6. All tools, materials and equipment must be sent up and down using the handline.
7. Time stops when the last climber is on the ground.
8. Judging will continue until all material is packed up and the event site is restored to the original condition.
9. All general rules apply.
